[Linkdein Profile](#)

### Professional Summary

Laravel Developer with 2+ years of experience building scalable web applications using Laravel, Vue.js, and React. Skilled in API development, Eloquent ORM, migrations, Blade templating, and MySQL optimization. Proven track record of delivering POS systems and high-traffic affiliate platforms, integrating third-party APIs, and ensuring performance and SEO best practices.

### Experience

#### Emerging Coders

Full Stack Developer | Rajkot | Mar 2024 - present

- Led the end-to-end development and maintenance of **SOLO Billing Software**, a robust multi-user POS system integrated with third-party platforms such as Swiggy and Zomato.
- Developed and implemented key modules within SOLO, including :
  - A **Buy X Get Y** promotional offer module, increasing customer engagement and repeat purchases by 15%.
  - A comprehensive **Inventory Management** Module to streamline store operations, enhance stock tracking, and improve supply chain visibility.
  - A **Loyalty Points** Module, including database schema design.
- SOLO currently powers **Martino's Pizza**, a fast-growing national chain with **41+ outlets** across India.

### Internship

#### HoneyBee Digital

Wordpress | Remote | Oct 2023 - Feb 2024

- Developed and maintained two high-traffic affiliate websites focused on product and hosting reviews, combining e-commerce functionality with blog-driven content.
- Automated the import and updating of Amazon affiliate products, streamlining product listings and improving operational efficiency.
- Integrated affiliate marketing strategies across platforms to maximize monetization and drive revenue growth.
- Implemented SEO best practices to enhance site visibility, improve search engine rankings, and increase organic traffic.
- Automated blog publishing to ensure consistent content delivery and support long-term traffic and engagement goals.

#### Prayosha Technologies & Imbuesoft LLP

Web Developer | Hybrid | Mar 2023 - Aug 2023

- Gained practical experience in Laravel development, including building and integrating RESTful APIs into live projects. Learned modern web technologies and collaborated closely with experienced developers to enhance technical and teamwork skills.

## Projects

### Gym Management System

Laravel | College Project | Sep 2023

- Developed a full-stack web application for managing gym memberships, bookings, and packages. Implemented secure user authentication and streamlined the management of gym operations, including member tracking and package purchases. The system provided a seamless user experience with real-time updates and responsive design.

### Custom UPI QR Code generator

Next JS | side project | December 2024 | [link](#)

- Developed a custom UPI QR-code generator using Next.js, enabling users to enter UPI ID, amount, and branding elements (like logo/business name) to instantly generate and download a payment-ready QR code. Implemented a clean, responsive UI and local client-side processing for seamless user experience.

## Education

### Higher Secondary Education

HSC | April 2021

Nirmala Convent School, Wankaner

Percentage: 61

### Bachelor of Science (B.Sc.) in Information Technology

Bsc IT | April 2024

Atmiya University, Rajkot

CGPA: 7.30
